WHY THIS DECISION MATTERS

- AI consumption is attributable to one operational case.
- The recommendation is deterministic and preserves a high-cost fallback.
- A human reviewer remains the only approval authority.
- Realized value stays unavailable until Finance validates the outcome.

CONFIDENCE

92%

Evidence complete. Risk LOW.

AI Onboarding Assistant

Toda la evidencia antes de actuar. IMPERATOR recomienda; la empresa decide.

VALUE

ESTIMATED

HUMAN AUTHORITY

Review the evidence before approving the recommendation.

La IA puede explicar. No decide, no aprueba y no calcula el ROI.

Review decision

IMPERATOR / IMMUTABLE RECORD

Decision Ledger

La historia auditable de la decisión: qué ocurrió, quién actuó, cuándo y por qué.

CURRENT LEDGER

DATE	FACT	ACTOR	STATE	VALUE
2 AUG	Decision approved	ADMIN	APPROVED	ESTIMATED

No implementation or result-validation fact is claimed in the current commercial view.

HUMAN

Actor and reason

THE BUSINESS RULE

Si una entrada es incorrecta, se añade otra.

La historia anterior nunca se sobrescribe.

What value could this Decision recover?

La estimación se mantiene separada del valor realizado hasta que Finance valida el resultado.

ESTIMATED ANNUAL RECOVERY

EUR 19.440

Deterministic ROI

Canonical scenario / not a customer result

ROI OF THIS DECISION

CURRENT ANNUAL COST	EUR 28.080
PROJECTED ANNUAL COST	EUR 8.640
ESTIMATED RECOVERY	EUR 19.440
REALIZED VALUE	Unavailable

VALUE STATES

01
ESTIMATED
Recommendation + ROI

02
IMPLEMENTED
Ledger fact required

03
VALIDATED
Finance evidence required

04
REALIZED
Only after validation

WHY THE SEPARATION MATTERS

- Forecasts remain forecasts until evidence proves the outcome.
- Approval does not automatically become realized business value.
- The Ledger preserves the exact path from estimate to validation.

CURRENT COMMERCIAL CLAIM

EUR 19.440 estimated / realized value not yet available

Nunca se presenta como ahorro de un cliente.

¿Cómo reconstruís hoy una decisión operativa?

Busco conversaciones de 15-20 minutos para contrastar el problema, no para vender una plataforma.

01

DECISION

¿Podéis explicar meses después por qué se tomó?

02

OWNERSHIP

¿Quién aprueba cuando existe impacto económico?

03

EVIDENCE

¿Qué sistemas contienen la prueba y cuánto cuesta reunirla?

04

OUTCOME

¿Comprobáis después si el ahorro esperado se realizó?

WHAT I NEED

Un caso real contado sin credenciales ni datos confidenciales.

Las conclusiones se utilizarán de forma anonimizada para el TFG.

¿Me dedicarías 20 minutos para entender cómo lo hacéis hoy?
